HELPFUL HINTS

“The herringbone tile trend is taking over, while the gray and white bathroom color trend is continuing to reign. Pair a herringbone pattern with white and gray colors for a modern luxe look.” – **Jenny Butler**, SHELTER Custom-Built Living

▲ Herringbone Pattern Tile

By installing your tile flooring in a fun pattern, you are adding interest without infusing extra colors.

▲ Quartzite Bench

Bathtubs don't have a monopoly on relaxation; unwind on a stone shower bench.
